

IT'S NOT GAME OVER,  
IT'S GAME ON!

# We CAN Reverse Global Warming!

The North Shore is moving to action!  
Dig into solutions in four *Getting Into Action* sessions

A qualified and diverse group of researchers from around the world identified, researched, and modeled the most substantive, existing solutions to address climate change. What was uncovered is a path to roll back global warming within 30 years.

Humanity has the means at hand. Nothing new needs to be invented.

Our work is to accelerate the knowledge and growth of what is possible. Join with others in our community to discuss and take action on Drawdown solutions.
